Experts in Meeting Your Company’s Needs, from Replenishing Production Fasteners to Supplying the Products used in Facility Maintenance
Quality, Service and Versatility is Our Business

Class C Components is an industrial distributor supplying standard and specialty products to meet the requirements of your facility. From Production to MRO, Facility Maintenance, Material Handling and Shipping we aim to provide responsiveness, excellent value, quality parts, and on-time delivery. We believe in a personal touch; Class C Components strives to answer customer calls with a voice, not a machine.

At Class C Components, our mission is to bring our passion for customer service, experience and knowledge to our customers to build partnerships that provide an excellent buying experience.

Value Added Services

Our value added services include:

- Ability to provide RoHS / REACH Compliant Products
- Bagging and Kitting
- Certifications, per request
- Fleet Delivery Service
- Inventory Management Programs
- ISO 9001 Certified Company
- Light Assembly Services
- On-site services
- Painted Heads
- Samples
- Special Labeling or Barcode Labels
- Special Packaging
- Specialized Coating and Plating
- Thread Locking and Patching
Vendor Managed Inventory (VMI)

Class C Components custom inventory management programs and JIT services ensure optimal stock levels on metric fasteners, stainless fasteners, hardware, fittings, abrasives, adhesives, janitorial, shipping, safety products and tapes. VMI programs ensure industrial supplies (for production and MRO) are inventoried at predetermined levels to minimize inventory, and maximize transaction savings by consolidating suppliers and purchases.

Class C Components is certified ISO 9001:2015. We are committed to utilizing state of the art technology, software and hardware to continuously improve efficiencies, streamline costs and reduce procurement time.

VMI Reduces:
- Freight
- Inventory
- Procurement Time
- Transactions

Supplement to VMI Programs:
- Blanket / Discreet P.O.’s
- Parts Kits
- Spot Buys

JIT Inventory • On-Demand Usage Report • Customized Programs per Customer

Custom Packaging and Kits

Whatever your need... special packaging, kitting or light assembly, let the experts at Class C provide the services you need to save you time and money. Our Kitting and Packaging Department has the experience and abilities to accurately package simple or complex kits or bags. Class C is able to provide bags, or kitting, that include a variety of types of components. Discuss your company’s requirements with your Class C Sales Representative.

Bar Coding Component Kitting Custom Labeling Light Assembly Special Bagging
Your Source for Fasteners

Let Class C give your company the benefit of our sales force’s 200+ years of combined experience in the Fastener Industry. We have some of the best people and one of the widest and most diverse product offerings available.

We offer products from quality manufacturers to ensure your requirements are fulfilled.
